We take great pride in our reputation for providing the highest levels of quality medical care to our patients. However, we realize there are times when some patients will not be satisfied with the outcomes of their treatments. We also recognize that in these instances, a patient has every right to pursue legal action if he/she feels we have been negligent in some way. We respect every patient's right to do so.

While some healthcare legal claims are justified, there are also frivolous legal claims filed in our country- claims that are driving up insurance rates and impacting court decisions for the patients who truly deserve compensation. We believe that an agreement early in the treatment process regarding the use of board-certified experts will help expedite resolution of concerns.

OUR COMMITMENT TO YOU

We commit to using only American Board of Medical Specialties (ABMS) board-certified expert medical witness (es) in any legal situation, who follow the code of ethics of our national specialty society. These steps ensure that expert medical witness we use have passed examinations, demonstrated expertise in their field and adhere to a solid code of ethics.

WHAT WE ARE ASKING YOU TO DO

We are asking you or any representative to commit to this process also, by using only board-certified physicians expert medical witness (es) if you are dissatisfied with your medical care and decide on legal action.

We hope, and believe, you will never have to consider this again. But if you do, we will honor this commitment to you in order to ensure a fair resolution.

AGREEMENT AS TO RESOLUTION OF CONCERNS

"I", "Patient/Guardian" shall be understood to mean _____.
(Print name of Patient or Guardian)

"Physician" shall be understood to mean Bradley M. Block, MD; Amy J. Nation, D.O.; Craig P. Chase, MD; Susan G. Smolen, MD; other physicians employed by Block, Nation, Chase & Smolen Family Medicine; and the corporation, Block, Nation, Chase & Smolen Family Medicine and Oviedo Medical Research.

Further, I understand that I am entering into a contractual relationship with Physician for professional care. I further understand that meritless and frivolous claims for medical malpractice have an adverse effect upon the cost and availability of medical care, and may result in irreparable harm to a medical provider. As additional consideration for professional care provided to me by Physician, I, the patient/guardian and/or my representative agree not to advance, directly or indirectly, any false, meritless, and/or frivolous claim(s) of medical malpractice against Physician.

Furthermore, should a meritorious medical malpractice case or cause of action be initiated or pursued, I (the patient) and/or my representative agree to use American Board of Medical Specialties ("ABMS") board-certified expert witness (es) in the same specialty as Physician. Furthermore, I agree that these expert witnesses will adhere to the guidelines and/or code of conduct defined for expert witnesses by the American Academy of Family Physicians.

In further consideration for this, Physician agrees to the same stipulations.

We believe in paving the way for the future of medicine. The Physicians at Block, Nation, Chase & Smolen Family Medicine often participate in pharmaceutical research trials. There is an opportunity for you, our patients, to participate as well.

What are the benefits to participants?

If you would like to participate in a pharmaceutical medical research study and if you qualify based upon one of your medical conditions (and other criteria, such as coexisting medical problems), then you could receive many benefits. As a participant, our medical care and services for your research study related medical condition would be at no cost to you or your health insurance plan, and you would receive financial compensation for your time & travel to see us; additionally, you would receive medication and testing (such as blood tests or EKG's) without cost to you or your insurance plan for your research study related medical condition. You might also be eligible to receive a new type of medication not yet available at pharmacies, and you will still receive your medical care from the physicians at Block, Nation, Chase & Smolen Family Medicine.

What kinds of medications are being studied?

Many of the medications being researched are already "on the market", but are now being compared to other medications; some medications are not yet "approved" by the FDA for general use by the public, but are in the last phase of testing (through large scale use) in order to seek final FDA approval. At this point of the FDA approval process, these medications have already been through prior phases of required FDA safety testing.

Who Will Be Handling Your Care?

During these pharmaceutical research trials, the physicians at Block, Nation, Chase & Smolen Family Medicine will be working jointly with a full-time nurse from **Oviedo Medical Research, L.L.C.** (or other similar research organization), who will act as our research coordinator. This nurse will be working part time at our office caring for our patients under the supervision of our physicians.

Why am I Receiving This Form to Sign?

The doctors at Block, Nation, Chase & Smolen Family Medicine will identify patients who might be eligible to participate in a pharmaceutical trial based upon their medical conditions. We will then contact patients to discuss their potential interest in participating in the study (as well as more specific details about the study protocol). Most importantly your medical records and personal information are never taken out of our office or shared with any other person or entity outside our practice unless you provide written authorization for us to do so. Thus, because our research nurse is not directly employed by Block, Nation, Chase & Smolen Family Medicine, we cannot allow this nurse to contact you about a research opportunity or review your medical records without your signed approval on this Authorization form.
